Riscaldabile per trattamenti "panno caldo"
Heatable for "hot towel" treatments

Tutta la nostra linea di asciugamani Basic si presenta come una valida alternativa al classico asciugamano in cotone per i trattamenti "panno caldo": le salviette possono essere riscaldate ed aromatizzate per i trattamenti pre/post rasatura.

- ammorbidisce il pelo
- rilassa i muscoli facciali
- dilata i pori e favorisce la depurazione
- elimina ogni traccia di sapone

Our whole range of Basic towels is a valid alternative to traditional cotton towels for the "hot towel" treatment: the towels can be heated and scented for use before/after shaving.

- softens the hair
- relaxes the facial muscles
- dilates the pores and favours cleansing
- eliminates all traces of soap
